

BIG TRUST FORMED
TO CONTROL GASIMMENSE SYNDICATE MADE UP
IN INDIANA.

All But two Pipe Lines Owned By One Company—Lumber Manufacturers Combine—Double Murder and Suicide—Think Prof. Adams Is Dead—General Northwestern News.

Wabash, Ind., April 15.—The Wabash Natural Gas plant will within the next week pass into the control of the Dietrich syndicate, composed of wealthy New Yorkers, represented in Indiana by Charles Stuart and James Murdoch of Lafayette and C. F. Dietrich, Indianapolis. Negotiations for the sale of the property were begun last year, but no agreement was reached until Saturday evening. Included in the transfer of the natural gas property are the plants at Somerset, Mich. and Herbst and the Wabash Artificial Gas plant, having a capital of \$30,000.

The Dietrich syndicate has issued bonds to the amount of \$2,000,000 on its Indiana natural and artificial gas properties and the bonds have been placed in Europe while the syndicate holds the stock. It has a practical monopoly of the gas supply of Indiana cities and it is said controls all fuel gas patents which it will utilize should natural gas fail.

MURDER AND SUICIDE.

Laborer at Cleveland Found Dead in His Cell After a Double Killing.

Cleveland, O., April 15.—At 4 o'clock yesterday morning John Sejar, a Bohemian laborer, aged 28 years, shot and instantly killed Carl Richter, aged 35, and fatally wounded Albert Richter, aged 22, the brother of his first victim. Two hours later the murderer was found dead in a cell at the Central police station, where he had been taken after his arrest. The shooting occurred at No. 99 Poplar street, Carl Richter, with his brother Albert and his wife and five children lived at that number. Sejar lived in the rear in a house owned by the Richters. All had been drinking until early in the morning, when Sejar started to go, and a general quarrel ensued. What followed can only be guessed at, but Sejar evidently opened fire on Carl Richter first. He then shot Albert Richter, after which he left the house, going to the home of his sister, a few blocks away. The police were notified and followed the murderer, who was arrested as he was leaving the house of his sister, where he had hidden the revolver in a bed.

The prisoner was placed in a cell by himself in an upper part of the prison. An hour later, as an officer was passing the cell, he saw the body of Sejar hanging from the grating of the door. The murderer had hanged himself with one of his suspenders and was dead when discovered.

BIG LUMBER COMBINE.

Organized at Rock Island, Ill., to Secure Equitable Freight Rates.

Rock Island, Ill., April 15.—The lumber manufacturers operating on the Mississippi river from Winona, Minn., to Hannibal, Mo., formed an organization here to consist of all manufacturers and dealers in lumber on the river. The object is to work in harmony and secure equitable freight rates in the commodities they manufacture to points of consumption, both east and west of the river. The present tendency of the railroad companies is to make much lower rates proportionately from the extreme north and extreme south to points east and west of the Mississippi river, than from the middle Mississippi river towns to the same points. The organization was called the Middle Mississippi River Lumbermen's association. The following officers were elected: P. M. Musser, president; H. M. McCarthy, vice-president; F. C. Denkmann, secretary; William Carson, Jr., treasurer. Freight committees for the Winona, La Crosse, Dubuque, Clinton, Davenport, Rock Island, Muscatine, Burlington, Hannibal and Louisiana districts were appointed.

Think Prof. McAdams Is Dead.

Alton, Ill., April 15.—Prof. McAdams, a noted geologist of this city, the man who had charge of the Illinois state exhibit at the World's Fair in Chicago, who is author of the anthropological and the geological history of the state of Illinois, is supposed to have been drowned in the Mississippi river some time between Thursday night and Sunday morning. He set out Thursday morning in a skiff with sail power to join his son and a party of others at their camping place some miles up the river above Alton. His son has returned here and has not seen his father, but his skiff and his dog have been found at a point seven miles up the river. Two yachts have gone in search of him or his remains.

Mother and Three Children Dead.

Fargo, N. D., April 15.—The residence of Frank Houghton, five miles north, was burned yesterday. The mother and three children, aged 6, 8 and 10 years, were burned to death. The husband was badly burned about the face and hands and injured by inhaling the flames, and it is doubtful if he can recover. Four grown children jumped from an upper window and were saved. The origin of the fire was a defective flue.

DEBS CASE TO-DAY.

A Decision Likely to Be Handed Down by the Supreme Court.

Washington, April 15.—It is expected that the Supreme court will take some action today in the Debs case, which was submitted, after long arguments both for and against the government during the last week in March. The court has now had the case under consideration since last Monday. No action was taken before that because the

justices were giving all their time to the income tax case. The question of jurisdiction of the lower court is about all there is to decide in the Debs case, and only one or two conferences were necessary to settle that. The court will adjourn for the summer in a few weeks, and if the Debs decision is not handed down today it is sure to be on the following Monday.

LIMA A FIELD OF CARNAGE.

Twenty-five Hundred Men of Both Sides Killed in the Late Revolt.

New York, April 15.—The Herald's correspondent in Lima, Peru, under date of March 25, writes of the attack on the capital by the revolutionists, which resulted in the overthrow of the Caceristas and the flight of the president to Montevideo.

"What a sight the streets presented! More than a thousand bodies of dead men and a large number of dead horses in the thoroughfares presented a most horrible and sickening sight, while a fetid, pestilential atmosphere pervaded the whole city."

"Had Caceres not resigned and fled on board a man-of-war the revolutionary army would have advanced from its position, only two blocks from the palace and the principal square, fought its way with burning petroleum, and destroyed with dynamite every obstacle to its progress. The revolutionary forces were still some 4,000 strong, while by killed, wounded and deserted the Cacerist troops had dwindled to some 2,000 men, all completely demoralized."

"The total number of dead and wounded on both sides is more than 2,500, and the actual number buried exceeded 1,500. Among these latter were seventy-five women and about 150 private individuals."

"In various parts of the city men and women fought alongside the revolutionary soldiers or fired on the Cacerist troops from their houses. In other sections of the city women opened the doors and pulled the wounded inside, afterward passing their rifles and ammunition out to Perola's soldiers."

HERDED LIKE CATTLE.

Treatment of Negroes Who Joined a Colony in Durango, Mexico.

Houston, Texas, April 15.—Alexander Goodwin, a bright young colored man, gives an interesting account of the hardships endured by the negroes who joined the Mexican Colonization company from Georgia and other southern states, and were taken to the company's lands in the state of Durango, Mexico. Goodwin escaped from the colony. The colonists were promised houses, beds, etc., and comfortable quarters and food for all. None of the conditions of the articles of agreement have been complied with.

The people are thoroughly disgusted, and would willingly return home were they allowed to do so, but they are guarded by armed Mexicans or Spaniards, and are not allowed to leave the place. The colonists are housed, or rather penned in large enclosures built of pea hulls, blocks of clay and dried mud. The occupants desiring shelter are compelled to build an overhead protection of corn husks and whatever else they can find. The food provided for these arm hands, who work in the fields from sunrise to sunset, consists of beef, coarse bread, corn and water.

FOR A NEW CANADIAN ROAD.

It Is Proposed to Build It from Quebec to James Bay.

Quebec, April 15.—One of the biggest schemes proposed in Canada since that for the construction of the Canadian Pacific railway has been proposed here by City Engineer Baillarge of Quebec, and will shortly be placed before the public and the government of the Dominion.

It consists of a proposal to construct a railway from Quebec to James Bay, the southern extension of the Hudson bay, and of the establishment at the latter place of a permanent colony of fishermen and fishing vessels. At the present time the only communication with James Bay is by the long sea voyage around by Hudson strait and owing to the difficulty of navigating the strait and the few weeks in the year that it is open to navigation, it is now only possible for fishing vessels and whalers to make one trip every two years to the bay. If the road is built it is said the vessels can make up two cargoes each year.

A JACK THE RIPPER.

San Francisco Man Accused of Horrible Crimes.

San Francisco, Cal., April 15.—The Emanuel Baptist church at Bartlett street, between Twenty-second and Twenty-third, in this city, has been the scene of two of the most atrocious murders ever committed in the state. Saturday the mutilated body of Minnie Williams was found in the library of the edifice. Yesterday the body of Blanche Lamont was discovered in the tower of the same church. The same hand, the authorities believe, slew both girls, and W. H. T. Durant, the young man suspected of both crimes, is now in custody. The police accuse him of other crimes and think he is a "Jack the Ripper." He asserts his innocence.

Shot by an Unknown Assassin.

Elwood, Neb., April 15.—Late last night, while Dr. J. E. Britton and a party of friends were sitting in a saloon, some persons unknown fired through the glass door at him. Five buckshot entered his back and neck, causing a dangerous but not necessarily a fatal wound. In the excitement no effort was made to capture the perpetrator of the crime. There is no clue to his identity and no known motive for the deed.

Two Big Suits Consolidated.

Denver, Col., April 15.—A special telegram from Cheyenne, Wyo., says: "In the United States Circuit court an order has been made consolidating the foreclosure suit of the American Loan and Trust company against the Union Pacific, Denver & Gulf Railroad company, with the suit of John Evans against the same company and appointing Frank Trumbull as receiver in the first-mentioned suit."

Simla, April 15.—The guides and infantry belonging to the brigade of Gen. Waterfield, part of the force operating against Urrina Khan of Janjolu, were detached from the brigade and sent across the Pung Jkora river to reconnoiter and to chastise some villagers who had been firing on the British camp. The British met a strong force of the enemy and were compelled to retreat, covered by an artillery fire from camp. Col. Battye was killed and several others of the British force were wounded. The natives showed great determination, and are still in force on the Pung Jkora river. The Third Brigade has joined the First and Second Brigades at Sado.

SURRENDERS GEN. MACEO'S MEN.

Havana Reports Tell of Bad Reverses for the Insurgents.

Havana, April 15.—A report reaches here from Palmarito, a village in the province of Santiago de Cuba, of an engagement between government forces and insurgents near that place. The government forces were made up of regular infantry and a number of volunteers, while the insurgents were under the command of Brig.-Gen. Flor Crombet, who, it is said, was killed. One colonel, Maj. Foster, and Tomas Sainz, secretary of Maj.-Gen. Maceo, were taken prisoners by the government forces. One lieutenant was wounded. Jorge Estrada surrendered all the men belonging to Gen. Maceo's expedition. Troops are in pursuit of the rest of the party.

White Squadron Anchors at Colon.

Colon, April 15.—Four warships of the North Atlantic squadron of the United States navy, now on a cruise in the West Indies and Caribbean Sea, have arrived here. They are cruisers New York, Columbia, Minneapolis and Cincinnati. Admiral Meade is in command. The run from Port au Prince, Hayti, was made in three days. Before coming to anchor the squadron was put through a series of evolutions, thus giving the spectators ashore an idea of its efficiency in case an emergency should arise. It is reported two vessels of the squadron will leave shortly for Greytown, Nicaragua.

Panic in a Barcelona Bull Ring.

Barcelona, April 15.—During a bull fight here the enraged beast jumped over the barriers and among the spectators. A wild rush was made for the exits and in the stampede many persons were injured. The employees made an attempt to capture the bull, but they could not get him, and finally a civil guard fired at him with his carbine, killing the animal and one of the spectators. As soon as it was known the bull was dead the spectators hurried back to their seats and the entertainment proceeded as though nothing out of the ordinary had happened.

Incendiaries Busy at Matanzas.

Tampa, Fla., April 15.—The conflagration on Barba and Matanzas, the principal streets of Matanzas, Cuba, Friday night, destroyed the large warehouse occupied by Beabollido & Co., sugar dealers, and owned by Miral Bros. The loss is estimated at \$200,000, insured in the North British and Sun Insurance companies. Fifteen persons were injured at the fire, which is attributed to incendiaries. A previous announcement of an intent to fire the town Sunday night now appears well grounded.

Russia Must Have a Gold Currency.

St. Petersburg, April 15.—The Novosti declares the minister of finance intends to prepare for the establishment of a gold currency by permitting payments and business transactions on the basis of the gold ruble, which has hitherto been forbidden. The depreciation in silver renders impossible the establishment of an actual silver ruble currency, which is the Russian nominal standard, as represented by the paper ruble.

It is believed he fell from a train.

May Wind Up the Finishers.

Cleveland, Ohio, April 15.—Aetna Lodge No. 13 of the National Union of Iron and Steel Workers has surrendered its charter and reorganized as a lodge of the Amalgamated Association of Iron and Steel Workers. This is considered important by iron workers, as it may mark the beginning of the dissolution of the finishers' union.

FINE HOTEL BURNS
AT PASADENA, CAL.FAMOUS \$1,000,000 STRUCTURE
DESTROYED.

The Guests of the House All Escape But the Most of Their Baggage Is Lost—Plattsburg Prison Burns—Locomotive Causes a Fire—Other Blazes Yesterday.

Los Angeles, Cal., April 15.—The Hotel Raymond at Pasadena, ten miles from Los Angeles, was destroyed by fire at 3:30 o'clock yesterday afternoon. Not a stick of the famous resort is left. The hotel was crowded with tourists, but they all escaped with their lives, although wardrobes and other possessions were consumed. The Raymond was one of the most famous health and pleasure resorts in the United States. It was located on a hill commanding a magnificent view of the San Gabriel Valley.

There is a mystery about the origin of the fire, though the accepted theory is a defective flue. The building was lighted throughout with electricity from a plant in the basement.

In less than an hour from the time the fire was discovered in the cupola at the southwest corner of the building, the huge wooden structure was level with the ground, and the only thing left standing to mark the spot was the tall brick chimney of the furnace.

ENTIRE TOWN DESTROYED.

Plattsburg, Mo., Almost Wiped Out by a Fire.

Plattsburg, Mo., April 15.—Fire started yesterday in the Stomum livery barns and spread rapidly. At 8 p. m. the entire south side of the town had been destroyed and the fire is still burning fiercely. Among the buildings burned is the court house. The damage already done is estimated at \$300,000.

Locomotive Causes a Fire.

Elkhorn, Neb., April 15.—A fire started by a spark from a Union Pacific engine consumed ten buildings and for a time threatened to wipe out the entire town. The loss was \$28,000, the principal buildings destroyed being the Cornish-King elevator, the Marsh livery stable, and the Commercial hotel. There was practically no insurance, as the rate charged by the companies was prohibitive. At one time, when the fire leaped, aid was asked of the Omaha fire department, but before it reached the scene the fire had burned itself out.

Four Story Structure Burns.

Grand Rapids, Mich., April 15.—The Standard Folding Bed company's factory, a four-story brick structure on the west side canal, was burned yesterday with a loss of \$15,000, mainly on machinery and stock. It was insured for \$5,000 in five different companies, the names of which can not be given until the safe is taken out of the ruins.

FLOODS IN NEW ENGLAND.

Bridges Washed Away, Logs Lost and Travel Interrupted.

Montpelier, Vt., April 15.—The rains of the last forty-eight hours have caused all the rivers and streams of this state and New Hampshire to rise to flood stages. The highway between this city and Green Mountain cemetery is eight feet under water and all the houses on the lower end of the city are uninhabitable. At Bethel the boom of the Fall Mountain Paper company went out this afternoon and 4,000,000 feet of logs are on their way to Long Island sound. The Mascoma river at Lebanon, N. H., is the highest known in twenty-five years and six bridges have been carried away. The river at Plymouth, N. H., is nineteen feet above the danger mark and the entire valley system of railroads has been washed away. Travel in all directions is suspended and the rain is still falling in torrents.

Colorado Cattle Wintered Well.

Denver, April 15.—Reports all show that Colorado cattle are doing finely and have gone through the winter in better shape than for five years. But for the unfortunate sandstorm of a week ago the loss in Colorado would have been practically nothing. Returns from the northeast show from 10 to 20 per cent loss. The average is put in Denver for the northwest portion of the state at less than 15 per cent, while in the Arkansas valley the loss will not exceed 3 per cent.

Union Pacific Reducing Wages.

Omaha, April 15.—Complaint is made by Union Pacific shermen that the company is now violating the order of Judge Caldwell prohibiting reduction in wages. Many men were let out during the last few months and then re-employed. When they were discharged on "account of slack work" they were working eight hours per day, and now when they are hired again they are put to work ten hours per day at the same wages they were getting for eight

WYOMING OIL LANDS BOOM.

Rise in the Price of the Product Causes the Advance in Values.

Casper, Wyo., April 15.—The rise in the Standard Oil company's product in the east caused an advance of two cents per gallon at the storage tanks here. Wyoming oil men are jubilant over the prospect of a rise in lubricating oil, which is pumped directly from the wells in these fields in a marketable condition. All of these oils are finding a ready market, and it is expected their prices will go up with the Standard's. To-day a sample run of illuminating oil was made, and it made a beautiful water white, fully up to the standard test. There is considerable activity in oil lands, and there are many inquiries from eastern capitalists. The Salt Creek producing wells now number five, with No. 6 nearly finished, and the piping and material now in transit to complete six more.

FROM THE CHICORA.

Message in a Bottle Sent When All Hope Was Abandoned.

Benton Harbor, Mich., April 15.—J. H. Graham of the Graham and Morton Transportation company received a telegram from Mrs. W. J. Hancock, wife of Clerk Hancock of the Chicora, stating that a bottle picked up at Glenn Pier yesterday morning was in her possession. It contained a message written by Engineer McClure. The message is given as follows:

"Are lost; Stines and Clark washed overboard yesterday; engine broke down; could see land but for snow."

The date was not given. This Mr. Graham believes to be genuine, judging from the style of construction of the message, and leads to the belief that other messages written earlier and some later are still afloat and will be found before many days.

JAMES W. SCOTT DEAD.

Proprietor of the Chicago Times-Herald Expires in New York.

New York, April 15.—James W. Scott, proprietor and publisher of the Chicago Times-Herald, died at 2:30 o'clock yesterday afternoon in his room at the Holland house in Fifth avenue. Apoplexy was the cause of death, which was peaceful as unexpected.

Mr. Scott arrived here Friday evening from Chicago, accompanied by Mrs. Scott, and a niece, Miss Grace Hatch. At that time Mr. Scott was apparently in the best of health. He had intended to pass a few days in this city and then to proceed to Cape May and subsequently to Virginia Beach, near Old Point Comfort. From there the Scotts were to proceed to Chicago.

Big Reception for Silverites.

Denver, Colo., April 15.—On their arrival in Denver, ex-Congressman Sibley, Senator Jones, and Gen. Warner will be met by a reception committee, at the head of which will be Gov. McIntyre and Mayor McMurray. A reception will be given to the visitors at the Brown Palace hotel in the evening, for which arrangements have been made on an elaborate scale. Gov. McIntyre will welcome the visitors to the state and one of them will reply, but the speeches will be brief. Tuesday afternoon an open air meeting will be held on the grounds of the state capitol. Special trains will be run from all over the state. Accommodations will be provided for over 5,000, but it is expected that from 20,000 to 25,000 people will be present. The program for the remainder of the week has not been completed.

Battleship and Gunboat Plans.

Washington, April 15.—The designs prepared by the construction bureau of the navy department for the new gunboats authorized by the last congress have been submitted to Secretary Herbert, and have been referred by him to the board of bureau chiefs, which will suggest any needed alterations before the advertisements for proposals are prepared. The plans for the two great battleships are now in the secretary's hands. It is expected they will give rise to some controversy among the designing officers, owing to the novel feature of double-story turrets proposed and the thirteen-inch guns which the ordinance bureau wishes to place on them.

Serious Conflicts in Oklahoma.

Perry, Okla., April 15.—Advices from Beaver county, Oklahoma, are that serious trouble exists there between cattlemen and homesteaders. The county is sparsely settled, only about one-tenth of the claims having been taken, the cattlemen having fenced in nearly the entire county, causing many conflicts with the homesteaders in doing so. There have been many serious conflicts and several killings have occurred. A public meeting has been called to take some action to restore order.

Expect Another Rise in Beef.

New York, April 15.—Another rise in the price of beef is looked for today. The local retail butchers who are organizing against the beef trust will receive a report from their executive committee today. The keepers of the restaurants and boarding houses generally say they cannot stand another advance in the price of beef without raising their prices for meals and for board in proportion.

Mother and Child Perish.

Chattanooga, Tenn., April 15.—Fire broke out last night in the residence of Mrs. Jennie McFarland and before the department could respond the house was destroyed and Mrs. McFarland and her infant child burned to death. FLORENCE MAN FATALLY INJURED THIS MORNING.

Misses While Searching For Ore Will Cost Him His Life—Iron Workers Strike at Port Washington—Crazy Man Attempts Suicide—Eloped With a Colored Man.

The police here located the pair in the negro quarter of the town. Requisition papers were secured from Gov. Upham yesterday.

LONG TIME TO WAIT.

Another Income Tax Ruling Not Expected for Some Months.

Washington, April 15.—The determination of the appellants in the income tax cases to secure a rehearing before a full bench of the United States Supreme court, on the points on which the court divided, has caused a renewal of interest in the question of Justice Jackson's health and the possibility of his return to the bench at an early day. Late advices from Judge Jackson's home at Nashville are that he is constantly improving, and that with the exception of an annoying cough his physical condition is fair. It is also stated from the same source he expects to be able to resume his duties as a member of the court at the beginning of the October term. There remains only a little more than a month of the present term and it is not expected that he will return for this brief period. In view of this fact there can be no possibility of another argument in the case before next fall or winter. It is quite possible the petition for a rehearing may not be granted. The court's rule of procedure in such cases is only to grant such petitions upon the request of a member of the court who has voted in opposition to the wishes of the petitioner.

POPE TO TAKE A HAND.

Encyclical Reported to Have Been Prepared for Manitoba.

Winnipeg, Man., April 15.—Archbishop Langevin, the Roman Catholic head in Western Canada, caused a sensation during a sermon in St. Mary's church here last night when he announced that hereafter all so-called adherents who did not follow the teachings of the church in the matter of education could not be regarded as members of the Roman Catholic church. This has an important bearing on the Manitoba school question, and means the excommunication of certain Catholics who have taken a stand against the church and with the Manitoba government in their determined fight for national schools. It is reported that a special encyclical from Rome has been received by the Manitoba bishops on the school question, hence the announcement by Archbishop Langevin.

DIES IN HIS PULPIT.

Alabama Preacher Takes Strychnine He Intended to Give to Sparrow.

Birmingham, Ala., April 15.—Rev. J. M. Jessup, an aged Primitive Baptist preacher, met death in a horrible manner at Sandy Ridge, Ala., yesterday. While delivering his sermon he suddenly fell to the floor in spasms, and died with his awe-struck congregation about him. It afterwards developed he had taken a lot of strychnine which he carried in his pocket on bread crumbs to poison English sparrows that infested his yard. He was also in the habit of carrying sugar in his pocket Sundays to clear his throat for his sermon. He took the strychnine by mistake.

Matthewan, N. Y., April 15.—Patrick McGuire and Michael O'Donnell, two of the five convicts who escaped from the Matthewan asylum Wednesday night, were captured at Pine Plains yesterday by Attendant James Coyle, of the asylum. This leaves only Perry, for whose arrest a reward of \$2,250 is offered, and Davis, who is said to be even more desperate and daring than Perry. When Superintendent Allison learned last night that Perry had broken into a house at Hushonville Thursday night and stolen a quantity of wearing apparel he at once dispatched attendants to all important points north of here.

A GLAD EASTER DAY FITTINGLY MARKED

THE LOCAL CHURCHES HOLD
SPECIAL SERVICES.

Handsome Floral Decorations and Elaborate Musical Programs Were the Features in All the Sanctuaries—Dr. Halsey Preaches to The Knights Templar—Other Exercises.

The sun never shone upon a fairer Easter Sunday than that of the year of our Lord 1895. It was an ideal day and seemed especially bright and pleasant as it marked the closing of the season of holy observance.

It was a gala day in the local churches too. In all the Janesville sanctuaries special music was arranged and the decorations were handsome and appropriate. At Court Street M. E. church the floral offerings were abundant, giving to the glad Easter morning a bright and cheerful welcome. An elaborate song service was well rendered by the quartette. The Knights Templars occupied the body of the church by special invitation, and their impressive ritualistic service was a feature of the morning worship. The pastor, Rev. S. Halsey, delivered a practical sermon on "The Teachings of Masonry," using for a text the words of St. Paul, "Prove All Things: Hold Fast That Which is Good." He said in part:

"A society with a membership in every part of the world, which has for centuries endured the severest possible tests known to men, facing bitter persecution without flinching, never compromising or retreating, possessing charity for all, teaching pure moral precepts, and seeking to relieve distressed humanity, are forces more eloquent and potent than the warmest words of praise from human lips. Masonry has never claimed a divine commission to go into all the world and make disciples. Like a modest maiden she waits to be courted, for the special benefit conferred."

"These Sir Knights are here for worship and instruction, to commemorate with you the resurrection of their Lord and Master, the Christ of no church or creed, but the Christ of the world. Many of the objections urged against Masonry, are founded on prejudice, standing frequently for conviction and conscience, but more baneful in its influence than error or bold defiant infidelity. It was prejudice, not conscience that persecuted our Divine Master from the Bethlehem manger to the hall of Pilate and the hill of Calvary. Prejudice not conscience, that filled the early centuries with intolerance and blighting infidelity. The same spirit is in the world today and would at any time repeat the bloody past if it had a chance. Secrecy is urged against the order. If it is such a noble order why not publish it to the world for the benefit of humanity? This would no doubt gratify people who cannot gain admission in a legitimate way, but whether wise or not is a debatable question. There is no law in the scriptures prohibiting any man from keeping some things to himself, discretion is commended as a virtue, and a revealer of secrets condemned. 'Let not thy left hand know what thy right hand doeth,' is a divine command. The purest charity is never advertised from the street corners. Truths as eternal as the teachings of God are behind masonry, to which the secrets are no more essential than clay to the brilliant diamond."

"Another objection urged is against character, and this is never fair. He who lives a miserable tramp life, or begs or steals his daily bread, is a king by the side of any one who seeks to destroy that priceless thing we call character. I admit that there are bad men among masons. Is that an argument against the thousands of good men whose lives are devoted to deeds of charity and acts of kindness. The same argument could be used against the church with equal significance. How we try to feast and fatten on human frailty, how prone to publish a brother's sins. How much easier to criticize and find fault, than to commend and praise. It is not fair to condemn a society or church, because a few bad men are connected with it. It is also urged that masonry is not a religious order. To be sure it is not in the sense of being bound by any church creed or polity, but it is about time that intelligent people

buried the fog ends of superstition, out of sight, in the interests of truth, and the welfare of humanity. Masonry recognizes and reverences the fundamental truths upon which true religion is based and respects the rights of conscience. It accepts and teaches the existence of God and of His Son Jesus Christ. It will not tolerate atheism or skepticism. The service this morning, which is universal throughout the world is all the argument necessary to convince the most skeptical that masonry, today as it ever has been, is founded on religious truth, having its precepts and practices, in harmony and accord, with the great principles of Christianity. It teaches purity of character and uprightness of life, and believes in the resurrection and immortality."

EASTER DAY AT OLD TRINITY.

Elaborate Musical Program and Appropriate Sermons By the Rector.

The observance of Easter day at Trinity church commenced with a celebration of the holy communion at half past six. The second service was matins and a second celebration at 10:30. The music was rendered by the surpliced choir of twenty six voices. The sermon was a masterly presentation of the perpetuity of the church catholic, and the additional Easter joy derived from this fact. The evening service was more especially for the children of the Sunday school and the address was made to them. Large congregations were present at all of the services, the music being as follows:

Processional Hymn 112—Jesus Christ is Risen Today, Alleluia. Cramer Te Deum Laudamus, Stainer in E flat. Benedictus 37. Christ the Lord is Risen Again. Introit Hymn 220. Kyrie Eleison. Stainer in F. BRIDGE NOT SAFE AND MUST BE FIXED

MILWAUKEE STREET STRUCTURE IS IN BAD SHAPE.

Several Holes Were Made in the Flooring Yesterday and the Whole Thing Is Thought To Be Weak While the Paving Blocks Are Worn Thin—Many Favor Iron.

One of the first things to confront the new city council will be the rebuilding of the Milwaukee street bridge, which is now unsafe and ought to be closed up in order to prevent serious damages. A number of holes were made in the bridge yesterday afternoon and a little later it was discovered that the flooring was quite rotten, it being a very easy thing to push a paving block through the rotten plank into the river. The paving blocks too, are worn out, some being not over two inches in thickness, and liable to be pulled out by teams passing over the bridge. Just what condition the piling and heavy timbers are in is not definitely known, many claiming that both have served the purpose long enough, and that an entirely new bridge will have to be built at once.

Just what action the new council will take in the matter is not known, but there is a strong feeling in favor of a modern iron bridge, both with the people and many members of the council, they believing it the best and cheapest bridge to build, besides they do not take kindly to continuing the present style of bridge building in Janesville.

Besides the rebuilding of Milwaukee street bridge, a proposition is now before the council, asking the city to take charge of the Jackson street bridge, which is also in need of considerable repairs, and must be attended to at once or condemned and closed up.

J. A. Richardson, of Jefferson City, Mo., Chief Enrolling force 38th general assembly of Missouri, writes: I wish to testify to the merits of One Minute Cough Cure. When other so-called cures failed, I obtained almost instant relief and a speedy cure by the use of One Minute Cough Cure. C. D. Stevens.

The above pantomimic comedy which has had such wonderful success everywhere, will be seen at Myers Grand Friday evening next. The Byrne Brothers are a rarely progressive firm of clever artists, and in this season's production will give their many admirers a rare treat, for they have perfected a number of new and startling tricks besides several scenic effects that are a marvel of stagecraft. An outlay of a large sum of money by these inimitable pantomimists results in one of the most realistic stage productions before the public.

B. H. Bowman: Pub. Enquirer, of Bremen, Ind., writes: Last week our little baby girl, the only one we have, was taken sick with croup; After two doctors failed to give relief and life was hanging on a mere thread we tried One Minute Cough Cure and its life was saved. C. D. Stevens.

JNO. MALLON, Esq., No. 21 McLean St., Adams, Cincinnati, O., writes: "I took sick with dropsy, lost my appetite, could not sleep, became feverish; always thirsty, lost all strength, stomach became painful, breath short and had to give up work. The best physicians in Cincinnati, failed to help me. My limbs and body were swollen to enormous size, and I was enduring terrible agony. The doctors all again, that I was liable to drop dead at any moment. My wife sent for the priest to prepare me for death. While waiting for death, I remembered reading of your 'Golden Medical Discovery,' and thought I would try it as a last hope. When I had taken three bottles, I was almost well. The swelling entirely disappeared and I was soon able to resume work. My health is better now than it has been in twenty-five years."

1632—George Calvert, Lord Baltimore, proprietor of the colony of Maryland, died; born 1592.
1716—Mme. de Maintenon, second wife of Louis XIV, died; born 1635.
1814—John Lothrop Motley, historian and diplomat, born in Chester, Mass.; died 1877. He graduated at Harvard and studied at the University of Göttingen. He was admitted to the bar and wrote a couple of unsuccessful novels. Having decided to compile a history of Holland, he returned to Europe and passed several years in research. Two works on the Dutch republic and Netherlands were pronounced by that great oracle, the Edinburgh Review, an honor to American and to any literature in the world. He served as minister to Austria during the whole period of our civil war. In 1839 he was appointed minister to England and remained one year.

1867—David Dudley Field, the elder, father of Cyrus, Stephen J., Henry M. and David D., died in Stockbridge, Mass.
1883—The Duke of Veragua, a lineal descendant of Columbus, arrived in New York from Spain as a guest of the nation at the World's fair.

In the death of James W. Scott, proprietor of the Chicago Times-Herald, the newspaper world has lost one of its brightest and best exponents, and the city of Chicago one of her most enterprising citizens.

Mr. Scott belonged to the class of men who know nothing about failure. Possessing an indomitable will, unlimited energy, the courage of his convictions, he was always found at the front, overcoming obstacles that seemed unsurmountable, and pressing forward with undoubted courage. His untimely death will be sincerely mourned throughout the country.

Removable Valves.

It is a fact that sediment will clog any process valve. It is also a fact that there is no mechanical way of preventing it. The next best alternative is to provide a way for the user (a woman) to get at the sediment, remove it and not lose a baking, if baking she is. The Jewel valve may be removed by anyone, cleaned and replaced in two minutes.

This distinctive Jewel improvement costs you no more. A tank valve that is removable is a necessity. Jewel tanks are also provided with a lug inside the tank just above the valve, to reduce the collection of sediment at the valve.

To the sympathizing friends who so kindly assisted us during the sickness and death of our little one, we extend our heartfelt thanks.

MR. AND MRS. JOHN P. WILCOX,

THE TOWN TALES OF A DAY.

Did you ever think of it? You owe it to your town and fellow citizens to drive as fine a rig as possible. The better rigs on the street, the better name in town. Do your share toward making our streets attractive to strangers, by riding in an Albemarle Stanhope as they don't cost any more than several inferior makes of buggies now being pushed on the market Wisconsin Carriage Top Co.

The Beloit Glee Banjo and Mandolin club gave a concert at the Congregational church Friday night of this week for the benefit of the Y. M. C. A. The price of admission has been very wisely placed at twenty-five cents, and this considering the attraction, is sure to bring a packed house.

"Truth crushed to earth will rise again." You can put a Wisconsin Carriage Top make of buggy through

all the wear and tear possible and it will always "come up smiling" as it were. It never loses that race of grace and dignity, the heritage of the truly genteel vehicle.

One talent, well cultivated, deepened and enlarged, is worth a hundred shallow faculties. The talent the Wisconsin Carriage Top Co. put into their buggies outweighs all tawdry trappings that were ever put on market.

The razor toe shoe sold by Brown Bros. & Lincoln at \$1.50 has the style of almost any \$3.00 shoe. They are as solid as the rock of ages and warranted to every respect.

SAYRE'S Turkish bath rooms which have been closed for the past few days on account of the illness of the attendant, are again open.

LAWN mowers of all kinds repaired and sharpened. Called for and delivered at Spicer Brothers', 116 South River street.

A NEW YORK MARKET.

Picturesque Sight Afforded by It Saturday Night.

Ninth avenue, between 38th and 42d streets, is as ugly and commonplace a spot as there is in New York as a rule, but on Saturday nights it presents a picturesque sight, says the New York Sun. Viewed from the elevated road, the smoky glare of lamps and the confused shouts make one think of the pitch lake in Dante's Inferno. Backed up against either sidewalk are long rows of dilapidated carts, heaped up with vegetables, fruit and meats, lighted by blazing kerosene torches. On each wagon are a couple of hoarse-voiced, brigand-like vendors, shouting their wares with all their might. Between the carts stand peddlers of all sorts, with pushcarts, with baskets, with trays. Generally foreign and unkempt, guileless of English beyond the names and prices of their goods, they sell ready-made clothing, small wares, pictures, toys, watches, shoe-strings. On the edges are oyster stands and sellers of hot sausages and other delicacies for immediate consumption. The usual measure is a pail, which varies in size; the price for any commodity seems uniform at a given time. As the evening wears on some dealer cuts his price and the cut runs at once along the whole line. The crowd that swarms to buy is a curious one. All carry baskets; all push on intent on bargains, with eyes and nose alert, as they needs must be in the uncertain light where chickens assume strange forms and fish becomes more than suspicious. There are stolid German faces, sharp, hard profiles of boarding-house keepers, fat, jolly, motherly old women, bright-eyed, sharp-tongued young girls. Here and there is a figure that seems afraid to be seen; a well-dressed young man with high hat and gloves, carrying a bag and with a very newly married look on his face; a woman in deep black, closely veiled, all move up and down, slowly, good-naturedly, assailed with sallies of rude wit from the carts and answering back in kind but with eyes and ears intent on a bargain. It is as picturesque a scene as any European town can offer.

QUARTZ CRAZINESS.

Mania for Finding Gold Stronger Than Other Forms of Gambling.

"A young man may recover from a crazy desire for gambling or give up whisky after he has been its slave," said Robert Searles of Denver to a Washington Sun man, "but when he goes quartz crazy there is no further hope for him unless he strikes a bonanza. Then his insanity will be none the less intense, but it will not be so pronounced, because he will have the means to pursue his passion without undergoing discomfort or creating remark. What do I mean by quartz crazy? Well, it is evident you have never been in the western country. Out where the mountains are piled up on top of each other these lunatics abound. A man who is quartz crazy is an individual who catches the mining fever and becomes convinced that his mission on earth is to find the greatest vein of pay-ore ever discovered. In pursuit of his quest he suffers more hardships and overcomes more obstacles than did all the knights who ever searched for the holy grail. He will leave home, family, friends and comfort, and, all alone, with a meager supply of provisions and a few tools, he will plunge into unknown wildernesses, and when he finds a place that holds out a mineral prospect he will burrow in the treacherous mountain side like a rabbit and dig from daylight to dark, expecting with every stroke of his pick to uncover his expected fortune. Nearly every prospector in the west or the rest of the world for that matter, is afflicted with the malady I have described. Some of them keep up their ceaseless search with every recurring season, and sometimes strike a good thing. In such cases somebody else, the party who has plenty of money to develop the find, reaps the profits.

"Fudges" of Vassar College.

"Nearly every night at college," said the Vassar girl, "some girl may be found somewhere who is making 'fudges' or giving a fudge party," says a writer in the Boston Globe. "Fudges are Vassar chocolates, and they are simply the most delicious edibles ever manufactured by a set of sweetmeat-loving girls. Their origin is wrapped in mystery. We only know that their receipt is handed down from year to year by old students to new, and that they belong peculiarly to Vassar. To make them, take two cups of sugar, one cup of milk, a piece of butter one-half the size of an egg, and a teaspoonful of vanilla extract. The mixture is cooked until it begins to get grimy. Then it is taken from the fire, stirred briskly and turned into buttered tins. Before it hardens it is cut in squares. You may eat the fudge either hot or cold; it is good either way. It never tastes so delicious, however, as when made at college, over a spluttering gas lamp, in the seclusion of your own apartments."

A Growsome Sensation.

The sailors on the Ammen ram are very wary about going into the manholes that lead to the water-tight compartments between the outer and inner shells. The space between the two hulls is barely two feet high, and the manholes admit only a small man. "But if a fellow gets away in there and becomes

scarred," said a workman the other day, as he screwed on the manhole cover, "he will swell up, and he can't crawl back through the hole to save his neck. I was in that compartment the other day, and when I thought how awful it would be to have the outer cover screwed on while I was there, I got panicky and tried to crawl back. I couldn't get through any way, although I had gone in easily enough. The harder I tried the bigger I swelled, and the men finally had to pull me out. When they got me through the clothes were torn off my back, so tightly had I been squeezed."

Had Been There Before.

The clerk in the dry-goods store was going along the street when he encountered a mob of rushing, howling men and boys. They passed over him and some time after he dragged what was left of himself and his clothes out onto the curb. "Gracious me!" he exclaimed, wiping the dirt out of his eyes, "that reminds me of the rush during Christmas shopping days."

BAD OUTFIT FINED
BY JUDGE PHELPSRESIDENCE AT 56 PLEASANT
STREET RAIDED BY POLICE.

Minnie Casar-Streeter and Charles Bly, The Ringleaders, as Well as Penitent Inmates Assessed From \$1 to \$25 Each—Hearings Case Adjourned—S. Rosenfeld Happy.

The city school fund was enriched this morning when Chief of Police Acheson introduced a motley crowd of evil doers to Judge Phelps, charged with violating one of the city ordinances. There were four women in the gag, under the leadership of Minnie Casar-Streeter, of 56 South River street. The den was "pulled" by the police Sunday evening, the four women and four male visitors being captured. All pleaded guilty and three of the girls, on promising "to sin no more," were let off with light fines, two with \$5 each and one with \$1, besides the costs.

Charles Bly appeared to be a leader on the male side of the den and was fined \$10 and costs, while Minnie Streeter was assessed \$25 and costs, the whole amounting to \$71.50, which was paid by Minnie Streeter.

There were two or three other inmates of the den of both sexes who escaped capture by the police. The charge was preferred under a provision of a city ordinance, consequently the funds revert to the city school fund.

Rosenfeld Is Happy.

Samuel Rosenfeld, the clothier on Milwaukee street bridge, is one of the happiest men in the city today. Last fall when he sold a stranger a bill of goods amounting to \$19.50 and then cashed a forged check of \$40.50 from which he took his pay, his friends had the laugh on him but now he is the recipient of many congratulations.

Saturday, Officer Wallace O'Shea went out to Evansville and arrested Peter St. John, charging him with being the man who passed the forged paper. St. John was brought into Judge Phelps' court this morning, and the examination was set for next Monday, April 22. It is intimated that St. John will plead guilty, thereby hoping to receive a lighter punishment than he would if convicted after an expensive trial. St. John passed the winter in Minnesota, the officers here being posted all time as to his movements, anticipating that he would eventually drift back here.

Johnson Case In Court.

The case of the state against the Johnsons and Klingberg of Beloit charged with implication in the North-western car burglary, was set for this afternoon, but had not been called at 4 o'clock, owing to the delay of defendant's attorneys. The case of the state against Herroth, who is charged with receiving a portion of the stolen goods from a Northwestern car, was called in the municipal court this morning and continued until April 18.

BOWER CITY NEWS NOTES.

The teeth are a source of annoyance and worry from childhood to old age. Children should be taught early in life to care for their teeth by using at least once a day a good stiff brush assisted by a pure and harmless dentifrice. Empress Josephine tooth powder is a fine, fragrant powder of harmless composition which imparts so the teeth that pearly whiteness so much admired and desired by all. Prentice & Evenson.

"I kept 4 of us busy all day Saturday and Sunday night and then we could not wait on more than half the people who called. Had we anticipated any such a rush we would have had more help," said S. D. Grubb this morning. "We are selling goods cheap and by letting the people know it we are getting their trade."

No criticism is so severe as the presence of a good example. The one thing that competitors cannot forgive about Quick Meal gasoline stoves is their perfection. They set a mark so high that they cannot reach it. The prices are as low as for inferior goods. Lowell Hardware Co.

Our trade Saturday showed that people know when they see a good thing. We divide the profit. We will continue to sell goods at the same reduced prices that we advertised for Saturday. Yours for shoes, Lloyd & Son.

We must have room for our spring stock, and so we cut prices all the pieces. The other fellows don't like it, but we must have room and will give you the profit. Lloyd & Son.

TWO WIVES FREED
BY JUDGE BENNETTBOTH WERE CASES OF PLAIN
DESERTION.

Mary E. Thayer of Evansville, and Mary Allen of Beloit, Given Divorces—Foreclosure Cases Passed Upon—Changes in The Arrangement of the Court Room.

Judge Bennett today granted two judgments of divorce, both being on the ground of plain desertion and both brought into court by the wife. The first was that of Mary E. Thayer against George W. Thayer, both of Evansville. The second was that of May Allen against Ethan Allen, the parties residing in Beloit. Besides these Judge Bennett granted judgment in a number of foreclosure proceedings. The judge goes to Monroe tomorrow to hold another term of the Green county court.

Janitor L. M. Nelson is making some important changes in the circuit court room. He has placed the large jury box on rollers, so it can be moved up close to the bar, and has removed the large witness box, a chair taking its place. This alteration will give the jury a better chance to hear the witnesses, besides they will sit with their backs to the audience, during the taking of testimony. The jury box, during the arguments of attorneys, is calculated to remain in its old position, where it can easily be moved on its rollers.

BABY CONTEST OPEN BALLOTS IN DEMAND

MUCH INTEREST IS SHOWN IN
THE CONTEST.

Five Shares of Stock in the Rock County Building Loan and Savings Association Will be Given the Winner June 1—Value at Maturity Is \$500 and It Is Non Assessable.

The polls for The Gazette contest for the babies is now open and the ballot will be found at the close of this article and will run until June 1, when the contest will close. Much interest is centered in The Gazette's offer to present the baby who gets the highest number of votes with \$500 worth of stock in the Rock County Building Loan and Savings Association. It is a prize worth getting, for naturally it will be worth just half a thousand dollars. That will be a nice nest egg if kept at interest after maturity until the child becomes old enough to want to use it.

It will buy an education.
It will buy a building lot.
It will buy a piano and the lessons necessary to play upon it.

It is more than many people are able to save in a life time.

Of course all the mothers and fathers want it for their babe. How to get it is told below:

The polls opened this morning and will remain open until June 1. The baby that receives the most ballots in that time will receive a certificate calling for these five shares of stock. There are no dues to be paid, no assessments to be met, no installments to provide for. The stock stands for \$500 in cash and on its maturity, which will be in nine and one-third years, the money will be ready. The prize is a handsome one—it is well worth winning and the conditions of the ballot are as follows:

From March 1 until June 1, a coupon will be printed in each issue of The Gazette.

Any one, anywhere in any state is entitled to vote as often as they buy a copy of The Janesville Gazette containing the above ballot.

Out the ballot out (trimming on the dotted lines.) Write in the name of your candidate and enclose same in an envelope addressed to Ballot Editor, Gazette, Janesville, Wis.

Only one person can be voted for on one ballot.

The baby who receives the largest number of votes will receive five shares of stock in the Rock County Building & Savings Association, cash value, \$500 at maturity.

The contest will close June 1 at 9 p. m., and the stock will be delivered as soon as the count of votes is completed.

Any non-subscriber who will subscribe for The Gazette and pay in advance will be entitled to the following number of ballots:

New subscriber paid in advance one month, 100 votes.

New subscriber paid in advance two months, 250 votes.

New subscriber paid in advance six months, 900 votes.

New subscriber paid in advance one year, 2,000 votes.

Each new subscriber who pays in advance and casts the number of votes specified is also entitled, of course, to cut coupons from the paper from day to day and vote in the regular manner.

No person will be allowed extra votes for stopping his paper and having it sent to another name at the same address.

In every instance they must be bona fide new subscribers.

No person will be allowed to stop his paper on Monday and start it again Tuesday and claim the premium offered.

No votes can be transferred from one candidate to another after being registered in this office.

Candidates must not be more than three years of age March 1, 1895, and must live in Janesville.

THE BALLOT.

The Publishers of "The Janesville Gazette" will give 5 Shares of stock in the Rock County Building, Loan & Savings Association to the Baby who receives the largest number of ballots.

—ONE VOTE FOR—

Of Janesville, Wis.

Very Queer Indeed.

Daily, nay, hourly experienced, are the sensations of the dyspeptic, nervous invalid. Ask him and he will tell you that it is well nigh impossible to describe them. Palpitations of the heart suggest—erroneously—that the organ is affected, buzzing in the ears, a queer metallic taste in the mouth and tingling along the edges of the tongue, restless, broken slumber at night, an inclination to sleep during the day, which disappears when the recumbent posture is assumed, frequent uneasiness of the stomach between and after meals when digestion ought to have performed its office. These are a few among the indices of the complaints speedily removable by the use of Hostetter's Stomach Bitters, which also cures and prevents chills and fever, biliousness, the stipation, rheumatism, neuralgia and kidney trouble.

A False Diagnosis.

La Grippe is confounded by many persons with a severe attack of catarrh, which in some respects resembles the former. These individuals

suffer severely with pain about the forehead, eyes and ears, with soreness in throat and stoppage of the nasal passages, and in fact are incapacitated for work of any kind for days at a time. These are catarrhal sufferers. Ely's Cream Balm has been used with the best results in such cases. The remedy will give instant relief.

In Hard Luck.

Mr. Fake lost his gold-headed cane. He did not expect to see it again, but a tramp brought it to him saying he had found it.

"You are an honest man," exclaimed Fake, "and, as a reward for your honesty, you may keep the cane. The cane itself is not worth much, but you can sell the gold head to some jeweler."

"No, I can't," replied the tramp. "I've tried that already, and it won't work."

A Good Match.

Old Lady—Then you are not married?

Modern Miss—No, indeed. I am one of the bachelor girls you hear about so much nowadays—have a profession, rooms of my own, and dine at the club, you know.

Old Lady—Ah, I see. You must let me introduce you to my dear son, who lives with me. He is one of the old maid men, you know.—N. Y. Weekly.

Looking After the Trifles.

"It is only by looking closely after the trifles that a profit can be made in these days of close competition," said the grocer to his new assistant.

"Yes, sir, I understand," replied the boy.

"For example," continued his employer, "when you pick the flies out of the sugar, don't throw them away. Put them among the currants."—Life.

Little Sister—What are you goin' to wear at the children's fancy dress party?

Little Brother—My Sunday clothes, I guess.

"But you mus' go as a character."

"Must I? Well, I'll bang my hair and pretend I'm a girl in a bicycle suit."—Good News.

Seeking a Mate.

Will B. Rich—I hear Miss Jilt has given Courter the "mitten."

Bolton Locke—Yes; and he's now making love to her sister.

Will B. Rich—Why, she won't have him!

Bolton Locke—No; but she will give him the mate for his mitten.—N. Y. Journal.

Thought It Might Go.

Editor (savagely)—Do you call that a joke?

Humorist—No, sir.

Editor—Then what in Chicago did you bring it in here for?

Humorist—Excuse me, sir. I understood that you were an Englishman.—Judge.

A Benevolent Boy.

"Well, Tommy, you got whipped in school to-day?"

"Yes, but it did not hurt."

"But you certainly have been crying."

"Oh, I wanted to let the teacher have a little pleasure out of it, so I made out it hurt like plazes."—Texas Sittings.

Nearly Drove Mrs. Martin Hale Wild. How She Obtained Relief.

(SPECIAL TO OUR LADY READERS.)

"Nearly all last winter I was sick in bed, and was attended by different physicians: none cured me, none helped me very much. When I attempted to get up, it was always the same story: my back would ache, I was dizzy and faint, the bearing-down pains were terrible. I also had kidney trouble badly. 'I knew I must have help right away. I resolved to try Lydia E. Pinkham's Vegetable Compound. The results were marvellous. I have gained in every way, and am entirely cured.' — MRS. THE COMING WEEK.

Work Mapped Out for the Illinois Legislature.

Springfield, Ill., April 15.—In the house this week the arbitration bill, a special order on third reading for Wednesday, having practically no opposition, will be passed without much discussion. An emergency clause is attached to it, and, if it is hurried through the senate and secures the governor's signature, as its friends expect, its aid may be invoked at once in the settlement of the troubles in the coal fields which are threatened early in May. The judiciary committee bill raising the practice act is a special order for Thursday on second reading. This is of great interest to lawyers, as it radically changes the code of civil procedure in courts of record. There appears to be no opposition to it.

If the house follows the regular order the bills on third reading will be taken up and a number of important measures will thus be put upon their passage. The bill prepared by the appropriations committee increasing the number of state mine inspectors to ten and providing for their compensation by the coal miners of the state, who want the number of inspectors increased but do not want the operators to pay them, as they fear the operators may look to the miners for reimbursement. The list of the house bills on second reading has already become almost appalling. It now is close to 200.

There will be only three legislative days this week in the senate, and on only two of these, Wednesday and Thursday, will committee meetings be

held. It is expected Wednesday morning the fate of Humphrey's drainage bill will be settled. Senator Humphrey will move a non-concurrence in the committee report and a long debate will be the result.

On the order of third reading is the bill introduced by Senator Mahoney providing for the appropriation of \$25,000 for the erection of a statue to James Marquette. When this bill was advanced Senator Paisley secured the adoption of an amendment providing that the statue shall be erected on the Capitol grounds, and it was insisted at the time by several of the friends of the bill that this would have the effect of killing it. The calendar was cleared last week of all appropriation bills except this, and Senator Dunlap refrained from calling this measure up. It is possible the bill will be sent back to second reading for the purpose of receding from the amendment before any effort is made to pass it.

Senator Little's revenue bill has been read a second time, and the consideration of it is a special order for next Wednesday. There has been so much opposition manifested to the measure that there is no probability that it will be advanced.

New York Bank Statement.

New York, April 15.—The weekly bank statement shows the following changes: Reserve, increase, \$992,850; loans, increase, \$584,900; specie, increase, \$915,300; legal tenders, increase, \$829,100; deposits, increase, \$3,008,200; circulation, increase, \$57,300. The banks now hold \$14,922,775 in excess of the requirements of the 25 per cent rule.
